

Intragroup Margin Exemption Disclosure Under The European Market Infrastructure Regulation

The European Market Infrastructure Regulation (**EMIR**) sets out minimum risk-mitigation techniques that apply to financial counterparties and non-financial counterparties that enter into non-cleared OTC derivative contracts. In particular, Article 11(3) of EMIR requires that financial counterparties, and non-financial counterparties that exceed the clearing threshold set out in Article 10 of EMIR, shall have risk-management procedures in place that require the timely, accurate and appropriately segregated exchange of collateral with respect to non-cleared OTC derivative contracts. Non-cleared OTC derivative contracts entered into between entities that are part of the same group, however, may benefit from an inter-affiliate exemption for the exchange of collateral, provided certain criteria are satisfied and, where required, exemption applications have been made to national competent authorities.

Below are details of the exemptions for the exchange of initial margin under EMIR which are utilised by Morgan Stanley entities (all such entities being affiliates consolidated within the same group of companies). Please note that exemptions are only being used for initial margin and not for variation margin. References to “AFM” are to the Netherlands Authority for Financial Markets, “APCR” are to *L’Autorité de Contrôle Prudentiel et de Résolution*, “BaFIN” are to the *Bundesanstalt für Finanzdienstleistungsaufsicht*, “CSSF” are to the *Commission de Surveillance du Secteur Financier* and “FCA” are to the UK Financial Conduct Authority.

Intragroup Counterparty 1	LEI 1	Regulator which has granted the exemption	Intragroup counterparty 2	LEI 2	Relationship	Full or partial exemption	Notional aggregate amount of the OTC derivative contracts for which the intragroup exemption applies (EUR million)*
