Morgan Stanley International Limited

Country by Country Reporting (“CBCR”)

Year ended 31 December 2019

Overview of the reporting requirement

Article 89 of the Capital Requirements Directive (“CRD IV”) sets out a Country by Country Reporting (“CBCR”) obligation on CRD IV regulated entities. This obligation was transposed into United Kingdom (“UK”) law under Statutory Instrument 2013 No. 3118 Capital Requirements (Country-by-Country Reporting) Regulations 2013.

Morgan Stanley International Limited Group

A single consolidated disclosure has been prepared for the Morgan Stanley International Limited (“MSI”) Group for the year ended 31 December 2019, which incorporates Morgan Stanley’s UK CRD IV regulated entities and subsidiaries and branches of such regulated entities.

The MSI Group is a wholly owned sub-group of the Morgan Stanley Group. The Morgan Stanley Group is a global financial services firm that maintains significant market positions in each of its business segments: Institutional Securities, Wealth Management and Investment Management. The Morgan Stanley Group provides a wide variety of products and services to a large and diversified group of clients and customers, including corporations, governments, financial institutions and individuals. The MSI Group is a key contributor to the execution of the Morgan Stanley Group’s Institutional Securities strategy in Europe, the Middle East and Africa (“EMEA”). The MSI Group provides capital raising; financial advisory services, including advice on mergers and acquisitions, restructurings, real estate and project finance; corporate lending; sales, trading, financing and market-making activities in equity and fixed income securities and related products, including foreign exchange and commodities; and investment activities.

During 2019, the MSI Group and the Morgan Stanley Group prepared their European operation in anticipation of the 31 January 2020 withdrawal from the European Union (“EU”) under the terms of a withdrawal agreement between the UK and the EU. This has resulted in additional subsidiaries within the MSI Group incorporated principally in Germany and Ireland being included in this MSI Group disclosure for the year ended 31 December 2019. Further details on Morgan Stanley Group’s preparation for the UK withdrawal from the EU can be found at https://www.morganstanley.com/about-us-ir/pillar3/2019_Pillar_3_Disclosures_Morgan_Stanley_International_Limited.pdf.

Whilst the MSI Group is a material sub-group, the information disclosed in this document is not necessarily indicative of the Morgan Stanley Group as a whole, nor is the information comprehensively representative of the Morgan Stanley Group’s activity in any particular region.

Country disclosure by entity

Pages 6 to 9 of this document provides a list of all legal entities and branches of the MSI Group as at 31 December 2019, including details of the nature of activities of each entity and geographical location. The majority of entities have been classified as financial services related entities.

Overview of the CBCR table

The CBCR table on page 5 sets out information on turnover, profits before tax generated, corporate income tax paid and received and number of employees for the MSI Group for the year ended 31 December 2019, split by geographical location. The MSI Group did not receive any public subsidies during the year ended 31 December 2019 that are required to be reported within this disclosure.

Morgan Stanley International Limited Country by Country Reporting (“CBCR”) Year ended 31 December 2019

Overview of the CBCR table (continued)

Turnover and profit before tax amounts are reported in accordance with the basis of preparation detailed in the MSI Group 2019 consolidated non statutory financial information, whilst corporate income tax amounts disclosed below are on a cash paid basis, in accordance with CBCR requirements. Corporate income tax paid and received in the year will not directly correspond to accounting profits and losses reported in the same year due to timing differences as a portion of the payments will relate to prior years.

Information disclosed below contains details of corporate income tax paid and received and withholding taxes suffered; however, the MSI Group incurs a range of other taxes which do not form part of this disclosure, including UK Bank Levy, social security and VAT. If these taxes had been disclosed this would have significantly increased the value of taxes paid by the MSI Group during the year ended 31 December 2019.

Independent Country-by-Country Reporting Assurance Report to the Members of Morgan Stanley International Limited

We have been engaged by the Directors of Morgan Stanley International Limited (“the Company”) to conduct a reasonable assurance engagement relating to the Country-by-Country Reporting (“CBCR”) disclosures set out on pages 1-2 and 5-9 for the year ended 31 December 2019.

In our opinion, the Country-by-Country Reporting disclosures for the year ended 31 December 2019 have been prepared, in all material respects, in accordance with the Capital Requirements (Country-by-Country Reporting) Regulations 2013 (“the Regulations”).

Respective responsibilities of the directors and assurance provider

The Directors are responsible for preparing the CBCR disclosures in accordance with the Capital Requirements (Country-by-Country Reporting) Regulations 2013.

Our responsibility is to express a conclusion on the CBCR disclosures based on our procedures. We conducted our engagement in accordance with International Standard on Assurance Engagements ISAE 3000 (Revised) Assurance Engagements Other than Audits or Reviews of Historical Financial Information, issued by the International Auditing and Assurance Standards Board (IAASB), in order to state whether the CBCR disclosures have been prepared, in all material respects, in accordance with the Regulations.

Our engagement provides reasonable assurance as defined in ISAE 3000 (Revised). Reasonable assurance means a high but not absolute level of assurance. Absolute assurance is very rarely attainable as a result of factors such as the following: the use of selective testing, the inherent limitations of internal control, the fact that much of the evidence available to us is persuasive rather than conclusive and the use of judgement in gathering and evaluating evidence and forming conclusions based on that evidence.

Our procedures consisted primarily of:

- Obtaining an understanding of the Company’s business, including the design and implementation of internal control relevant to collection of the information used to prepare the CBCR disclosures. This included discussions with Company management responsible for the CBCR disclosures;
- considering the risk of material misstatement of the CBCR disclosures;
- where appropriate, testing the operating effectiveness of internal controls over collection and aggregation of the data underlying the CBCR disclosures. This testing was designed to provide evidence to support our opinion on the CBCR disclosures and not for the purpose of expressing an opinion on the effectiveness of those internal controls; and
- testing underlying data on a sample basis.

**Independent Country-by-Country Reporting Assurance Report to the Members of Morgan Stanley International Limited
(continued)**

Basis of Preparation and Restriction of Distribution

Our report is made solely to the Company’s members, as a body, in accordance with ISAE 3000 (Revised). Our work has been undertaken so that we might state to the Company those matters we are required to state to them in this report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company’s members as a body for our work, this report, or for the conclusions we have formed.

Without modifying our opinion, we draw attention to the fact that the schedule may not be suitable for any other purpose other than meeting the requirements of the Regulations, in accordance with which it has been prepared.

Independence

In conducting our engagement, we have complied with the APB Ethical Standards for Auditors and the ICAEW Code of Ethics.

MALTA	1	1	-	-
SUB TOTAL	8,790	1,040	75	6,555
WITHOLDING TAX			176	
INTER-COUNTRY ELIMINATIONS	(1,104)			
TOTAL	7,686	1,040	251	6,555

Notes on the disclosure:

Balances disclosed above are rounded to the nearest \$million with respect to turnover, profit before tax and corporate income tax paid/ (received).

Country: Country location under which an entity’s activity is reported is primarily based on the country of incorporation/legal registration and on other factors such as the tax residence. In most cases all of these factors are consistent; however, where they differ the tax residence of an entity has been used as the determining factor in classifying activities.

Turnover: Turnover is defined as ‘net trading income’, ‘net income from other financial instruments held at fair value’, ‘fee and commission income’, ‘other revenue’, ‘interest income’, and ‘interest expense’. Turnover amounts per country are disclosed net of intra-country eliminations.

Profit/(loss) before tax: represents accounting profits/ (losses) in accordance with the recognition and measurement principles of IFRS.

Corporate income tax paid/ (received): details the value of corporate income tax paid/ (received) on a cash basis, in addition to withholding tax. Withholding tax comprises the tax charged on dividends or other income received, which is typically paid at the point of a distribution from one country to another. For the year ended 31 December 2019 the UK entities of the MSI Group had \$173MM of withholding tax deducted from their overseas income. Under UK tax rules, where a UK entity is taxed on its worldwide income, the withholding tax deducted can be offset against its UK corporation tax in order to prevent the same income being taxed twice. The withholding tax deducted has been disclosed separately from corporation income tax paid/ (received) by country in the table above. See page 2 for further information. The UK total tax paid also includes tax paid on behalf of other non-MSI Group entities by virtue of a Group Payment Arrangement. Tax paid by MSI may be subject to reallocation in future years. These tax payments and reallocations are recognised in the year in which they are paid or reallocated.

Morgan Stanley International Limited Country by Country Reporting (“CBCR”) Year ended 31 December 2019

Full time equivalent number of employees: is the average full time equivalent number of employees for the year legally employed by entities within the MSI Group, excluding contractors.

Inter-country eliminations: represents the elimination of intra-group cross-border turnover.
