(1) Reflects the regional view of Company's consolidated net revenues, on a managed basis, based on the following methodology:

Institutional Securities: investment banking – client location, equity capital markets – client location, debt capital markets – revenue recording location, sales & trading – desk locations; Global Wealth Management – financial advisor location; Asset Management – client location except for the real estate investing business, which is based on asset location.

Geographic Optimization

- **Institutional Securities**

- Grow equity derivatives, corporate derivatives, and retail structured products
- Capitalize on changes in the insurance and pension markets in Europe and the US
- Obtained Broker-Dealer license in Mexico
- Further build out MSREF business in Brazil and Mexico and expand in China/Japan
- Aggressive localization and growth of Asian offices
 - Building out the China platform: Morgan Stanley Bank International (China)
 - Focus on local licenses in Korea and Taiwan (Integrated Securities House License) - fixed income sales, capital markets, investment banking and institutional equities
 - Agreement to acquire a stake in PetroVietnam Finance Corporation (PVFC)
 - Prime brokerage team in Singapore
- Build investment banking and other businesses in Australia

Geographic Optimization

- **Global Wealth Management**

- Refocused on ultra-high net worth market segment
- Private Bank expansion
- Focused on growth strategy – investing in talent for growth
- Centers in Hong Kong and Singapore
- Leverage the brand in China, Taiwan and India
- Build out High Net Worth Platform in Latin America

- **Asset Management**

- Continue to expand global distribution and product platforms via organic growth and possible acquisitions (Europe, Latin America and Asia)
- Build private equity platform globally
- Investing in talent

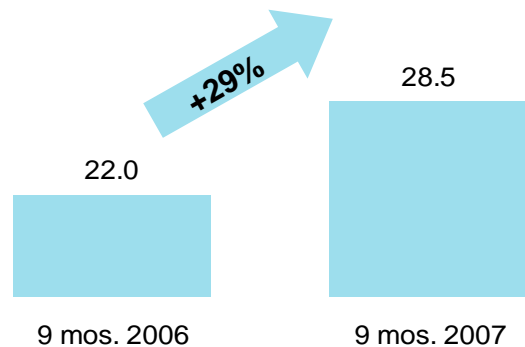

- **Cross-Divisional Initiatives**

- Further build out Emerging Markets footprint (Turkey, Dubai, Qatar, Saudi JV, Kazakhstan, Central Europe)
- Expand client footprint (middle market)
- Build strength in Japan, maintain CMBS strength, reinvest in investment banking, and institutional equities evaluate GWM opportunities
- Full ownership, full service institutional securities platform in India and full scale business expansion with Brazil

Near-Term Outlook

- Continued market deterioration since August reduces fair value of Morgan Stanley's subprime exposure by \$3.7Bn in the company's trading portfolio as of October 31, 2007
- The markets will take several quarters to return to more normal operating levels
- Investment Banking, Equities, Global Wealth Management and Asset Management continue strong through October 31st
 - Investment banking pipelines continue to be healthy
 - Equities seeing robust customer flows with strength across products and regions
 - Global Wealth Management client activity remains robust, and
 - Asset Management positive long term net flows and AUM growth continue in spite of difficult markets
