

Morgan Stanley Institutional Liquidity Funds

Prime Portfolio

Investment Objective

The Morgan Stanley Institutional Liquidity Funds (MSILF) Prime Portfolio seeks preservation of capital, daily liquidity and maximum current income.

Investment Philosophy

We believe that a conservatively managed portfolio of liquid, high-quality money market instruments may offer the best means of maximizing current income while preserving capital and liquidity.

Investment Process

The management team follows a multi-pronged investment process with respect to credit risk, interest rate risk and liquidity. Securities are reviewed on an ongoing basis to maintain or improve creditworthiness, taking into consideration factors such as cash flow, asset quality, debt service coverage ratios and economic developments.

Fund Highlights

The MSILF Prime Portfolio offers the following benefits:

**Security:** the fund is rated AAAM by S&P, Aaa-mf by Moody's, and AAAmmf by Fitch, reflecting the credit quality, diversification and security of the fund.

**Liquidity:** competitive trading deadlines and same-day access give you flexibility and control.

**Yield:** provides a competitive rate of return.

Investment Performance

	Cumulative (%)			Annualized (% p.a.)			
	MTD	YTD	1 YR	3 YR	5 YR	10 YR	INCEPTION
Class IN Shares	0.39	5.31	5.31	4.09	2.56	1.88	1.77

Calendar Year Returns (%)

Performance data quoted represents past performance, which is no guarantee of future results, and current performance may be lower or higher than the figures shown. For the most recent month-end performance figures, please visit [www.morganstanley.com/liquidity](http://www.morganstanley.com/liquidity). Investment returns will fluctuate and fund shares, when redeemed, may be worth more or less than their original cost. Yield quotation more closely reflects the current earnings of the Portfolio than the total return. Yields are subsidized.

Average Portfolio Maturity  
(Month-end figures)

Maturity Distribution

The maturity distribution reflects the final maturity date except for floating rate securities for which the next reset date is reflected.

Expenses are based on the fund's current prospectus, in effect as of the date of this document. For information on the applicable fund's current fees and expenses, please see the fund's current prospectus.

This piece must be preceded or accompanied by the Fund's prospectus.

The Portfolio will be required to price and transact in their shares at a floating Net asset value ("NAV"). The portfolio will be required to impose a mandatory liquidity fee when a fund experiences daily net redemptions that exceed 5% of net assets, unless the fund's liquidity costs are de minimis.

Fund Facts

Fund number	8301
Total net assets	\$ 13,298.92 million
Purchase deadline	2 PM ET
Redemption deadline	2 PM ET

Share Class

	CLASS IN
Inception date	02/02/2004
Ticker	MPFXX
CUSIP	61747C715
Net asset value (\$)	1.0002
Dividends declared	Daily
Minimum initial investment (\$)	10,000,000
Management Fee (%)	0.15
Gross Expense Ratio (%)	0.21
1-day liquidity (%)	39.84
7-day liquidity (%)	58.31
7-day current yield subsidized (%)	4.47
30-day effective yield subsidized (%)	4.67

Yields are subsidized. As of December 31, 2024, the fund's 7 day and 30 day unsubsidized yields were 4.46% and 4.66%, respectively, and its simple (7-day) yield, gross of all fee waivers and expense reimbursements, was 4.67%.

Yield quotations more closely reflect current earnings of the money market fund than total return quotations. Yields are subject to change.

Recent and any future declines in interest rate levels could cause these funds' earnings to fall below the funds' expense ratios, resulting in a negative yield.

Characteristics

	FUND

## DEFINITIONS

**Unsubsidized yield** The unsubsidized yield reflects what the yield would have been had a fee and/or expense waiver not been in place during the period shown. **Total return** A measure of a fund's performance that encompasses all elements of return: dividends, capital gain distributions, and changes in net asset value. Total return is the change in value of an investment over a given period, assuming reinvestment of any dividends and capital gain distributions, expressed as a percentage of the initial investment. **Weighted average life** measures the weighted average of the maturities of the portfolio's individual holdings. **Weighted average maturity** measures the weighted average of the maturities of the portfolio's individual holdings, taking into account reset dates for floating rate securities. **Yield definitions** The 7-day current yield is an annualized net yield which assumes dividends are not reinvested in the fund. The 30-day effective yields are annualized net yields that describe 1-year earnings assuming dividends are reinvested at the average rate of the last 30 days. The 7-day simple yield describes the annualized income earned over the last 7 days.

## IMPORTANT RATINGS DISCLOSURES

Ratings represent the opinions of the rating agency as to the quality of the securities they rate. Standard & Poor's, Moody's, Fitch and NAIC ratings rate the investment quality of the fund's shares. Independent rating agency ratings include, but are not limited to, a regular analysis of a fund's liquidity, diversification, operational policies and internal controls, its management characteristics and the creditworthiness of its assets. Ratings are not intended as a recommendation and are subject to change. Ratings are relative and subjective and are not absolute standards of quality. The portfolio's credit quality does not remove market risk.

**Standard & Poor's** money market fund ratings are forward-looking opinions about a fixed-income fund's capacity to maintain stable principal (net asset value). When assigning a principal stability rating to a fund, Standard & Poor's analysis focuses primarily on the creditworthiness of the fund's investments and counterparties, and also its investments maturity structure and management's ability and policies to maintain the fund's stable net asset value. For more information, please visit: <http://www.understandingratings.com>.

**Moody's Investors Services Inc's** money market fund ratings are opinions of the investment quality of shares in mutual funds and similar investment vehicles which principally invest in short-term fixed income obligations. As such, these ratings incorporate Moody's assessment of a fund's published investment objectives and policies, the creditworthiness of the assets held by the fund, the liquidity profile of the fund's assets relative to the fund's investor base, the assets' susceptibility to market risk, as well as the management characteristics of the fund. For more information, please visit: [http://v3.moody's.com/researchdocumentcontentpage.aspx?docid=PBC\\_79004](http://v3.moody's.com/researchdocumentcontentpage.aspx?docid=PBC_79004).

**Fitch Ratings'** money market fund ratings are an opinion as to the capacity of a money market fund to preserve principal and provide shareholder liquidity. Money market fund ratings are distinguished from the long-term credit-rating scale by the 'mmf' rating subscript and range from 'AAAmmf' to 'Bmmf'. For more information, please visit: [http://www.fitchratings.com/creditdesk/public/ratings\\_defintions/index.cfm](http://www.fitchratings.com/creditdesk/public/ratings_defintions/index.cfm).

## RISK CONSIDERATIONS

### FLOATING NAV FUNDS

You could lose money by investing in the Fund. Because the share price of the Fund will fluctuate, when you sell your shares they may be worth more or less than what you originally paid for them. The Fund may impose a fee upon sale of your shares. The Fund generally must impose a fee when net sales of Fund shares exceed certain levels. An investment in the Fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor is not required to reimburse the Fund for losses, and you should not expect that the sponsor will provide financial support to the Fund at any time, including during periods of market stress.

The prices of fixed income securities respond to economic developments, including interest rate changes. Indeed, prices tend to be inversely affected by changes in interest rates. Accordingly, the portfolio is subject to interest rate risk, and in a rising interest rate

environment, portfolio shares can decline in value.

## DISTRIBUTION

This communication is only intended for and will only be distributed to persons resident in jurisdictions where such distribution or availability would not be contrary to local laws or regulations.

**Hong Kong:** This document has been issued by Morgan Stanley Asia Limited for use in Hong Kong and shall only be made available to "professional investors" as defined under the Securities and Futures Ordinance of Hong Kong (Cap 571). The contents of this document have not been reviewed nor approved by any regulatory authority including the Securities and Futures Commission in Hong Kong. Accordingly, save where an exemption is available under the relevant law, this document shall not be issued, circulated, distributed, directed at, or made available to, the public in Hong Kong. **Singapore:** This publication should not be considered to be the subject of an invitation for subscription or purchase, whether directly or indirectly, to the public or any member of the public in Singapore other than (i) to an institutional investor under section 304 of the Securities and Futures Act, Chapter 289 of Singapore "SFA", or (ii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA. In particular, for investment funds that are not authorized or recognized by the MAS, units in such funds are not allowed to be offered to the retail public; any written material issued to persons as aforementioned in connection with an offer is not a prospectus as defined in the SFA and, accordingly, statutory liability under the SFA in relation to the content of prospectuses does not apply, and investors should consider carefully whether the investment is suitable for them. This publication has not been reviewed by the Monetary Authority of Singapore.

## OTHER CONSIDERATIONS

**Morgan Stanley Institutional Liquidity Funds (MSILFs)** MSILFs are institutional mutual funds offering seven different cash management portfolios.

**Fund adviser** The Morgan Stanley Institutional Liquidity Funds (MSILFs) are managed by Morgan Stanley Investment Management, Inc.

MSILF returns are net of fees and assume the reinvestment of all dividends and income. Returns for less than one year are cumulative (unannualized). MSILF returns are reported for Institutional class shares. Performance for the other classes will differ. The Portfolio's "Adviser" and "Administrator," Morgan Stanley Investment Management Inc., has agreed to reduce its advisory fee, its administration fee and/or reimburse the Portfolio's Institutional Class so that Total Annual Portfolio Operating Expenses, excluding certain investment related expenses, taxes, interest and other extraordinary expenses (including litigation), will not exceed 0.20%. The fee waivers and/or expense reimbursements will continue for at least one year or until such time as the Board of Trustees of Morgan Stanley Institutional Liquidity Funds (the "Fund") acts to discontinue all or a portion of such waivers and/or reimbursements when it deems such action is appropriate.

**Expenses are based on the fund's current prospectus, in effect as of the date of this fact sheet. For information on the applicable fund's current fees and expenses, please see the fund's current prospectus.**

This material must be preceded or accompanied by a prospectus for the Morgan Stanley Institutional Liquidity Funds. The prospectus contains information about the funds, including the investment objectives, risks, charges and expenses. For an additional copy of the prospectus, please visit [www.morganstanley.com](http://www.morganstanley.com). Please read the prospectus carefully before investing.

This material is a general communication, which is not impartial and all information provided has been prepared solely for informational and educational purposes and does not constitute an offer or a recommendation to buy or sell any particular security or to adopt any specific investment strategy. The information herein has not been based on a consideration of any individual investor circumstances and is not investment advice, nor should it be construed in any way as tax, accounting, legal or regulatory advice. To that end, investors should seek independent legal and financial advice, including advice as to tax consequences, before making any investment decision.
